1 [Creating presentation slides: a study of user preferences for task-specific versus generic application software](#)

Jeff A. Johnson, Bonnie A. Nardi

 March 1996 **ACM Transactions on Computer-Human Interaction (TOCHI)**, Volume 3 Issue 1

Publisher: ACM Press

 Full text available: [pdf\(1.94 MB\)](#)

 Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#), [review](#)

We conducted a study to investigate the use of generic versus task-specific application software by people who create and maintain presentation slides. Sixteen people were interviewed to determine how they prepare slides, what software they use to prepare and maintain slides, and how well the software they use supports various aspects of the task. The informants varied in how central slidemaking was to their jobs. The hypotheses driving the study were that: (1) some software applications are ...

Keywords: application software, interoperability, interview study, slide presentations, task analysis, task specific

2 [Posters: Sketching informal presentations](#)

Yang Li, James A. Landay, Zhiwei Guan, Xiangshi Ren, Guozhong Dai

 November 2003 **Proceedings of the 5th international conference on Multimodal interfaces**

Publisher: ACM Press

 Full text available: [pdf\(845.86 KB\)](#)

 Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Informal presentations are a lightweight means for fast and convenient communication of ideas. People communicate their ideas to others on paper and whiteboards, which afford fluid sketching of graphs, words and other expressive symbols. Unlike existing authoring tools that are designed for formal presentations, we created SketchPoint to help presenters design informal presentations via freeform sketching. In SketchPoint, presenters can quickly author presentations by sketching slide content, over ...

Keywords: gestures, informal presentation, pen-based computers, rapid prototyping, sketching, storyboards, zooming user interface (ZUI)
